Message From the Chief Executive Officer

The year 2020 was one full of challenges however, Stowelink met it with strong vision and commitment. In the year 2020 Stowelink focused mainly on advocacy and dissemination of health information to the general population and people living with NCDs through various communication channels. Stowelink was running two major projects that were expected to end at the end of the year. NCDs 365 and the Increasing Priority and Budget Allocation (IPBA) for NCDs in Vihiga County, Kenya were the key projects. Stowelink executive member's also managed to participate in various activities both local and international which are highlighted in this report.

In the spirit of empowering as many people globally as possible with health information on NCDs, Stowelink initiated the NCDs365 project. The project initially aimed at collecting, simplifying and disseminating information on NCDs through social media platforms. However, on the wake of Covid-19, the project produced a few printed materials for PLWNCDs in Vihiga County. This has been our most successful project so far having reached more than 1.5 million individuals online and 500 households' offline. The project was also recently featured in the Sustainable Development Solutions Networks' (SDSN) 2020 Youth Solutions Report. It has also been recognized by the One Young World and the United Nations.

We also concluded our first donor funded project courtesy of the NCDS Alliance of Kenya. The IPBA project was a test for Stowelink's systems and depth of expertise. The project concluded in December 2020 and Stowelink is happy of say that all the project objectives were met. It was the first time Stowelink was partnering directly with a county government at the highest administration levels. Stowelink's work in Vihiga was also featured in the county's annual report for the fiscal year 2019/2020.

Perhaps our greatest achievement was the resilience during the Covid-19 pandemic. Stowelink still managed to run its projects smoothly. We managed to curate our projects in response to the pandemic. The flexibility and innovation of the Stowelink team was key towards the year's achievements.

In 2021 you should look out for even disruptive and innovative approaches in tackling NCDs. NCDs 365 will enter the second phase where we will transition from image posters to animated videos. Stowelink is also seeking even bigger partnerships locally and internationally to support its work in various fields through finances, capacity building, collaborations and connections. Let us all come together to empower and transform lives.

Stephen Ogwenio

Chief Executive Officer
Stowelink Inc

Our Mission & Vision

The Power of We boosts the impact we can have on the community. It fuels our ability to continue delivering extraordinary results for our partners, beneficiaries, and donors.

Our Mission

To provide a platform for youth engagement in health systems through inclusive and innovative health programs that leverage partnerships to inspire healthier communities.

Providing access to high quality and cost-effective health services.

enhance young people's literacy on non-communicable diseases, and sexual reproductive health issues, among other health areas.

To contribute to health advocacy activities led by young people locally, nationally and globally.

Conduct research and share knowledge, skills, and best practices to improve preventive and promotive healthcare services.

Build alliances, partner and collaborate with other national, regional and global networks to drive health agenda.

Promote and strengthen youth capacity on disease prevention via health education and innovation to influence healthy behavior.

Vision

To inspire healthier communities through inclusive and innovative health projects where people can attain and maintain the highest standards of health.

Milestones, Awards, & Recognitions

We're making a meaningful impact on the world.

We aim to meet the health care needs of the society through improving access to high-quality diagnostic services, education and research. With this in our mind, Stowelink Inc is committed to the inclusion and contribution of young people in improving and maintaining the health status of people.
